Producers of COREFLOOR HOLLOW-CORE SLAB
PRESTRESSED CONCRETE SLAB SYSTEMS

LEED CERTIFICATION INFORMATION FOR OUR PRODUCTS

Corefloor Hollow-Core Slab produced by StresCore, Inc. and associated materials can be applied for LEED ratings. The following information can be used as a guideline for potential LEED credits. Each project will require job-specific calculations, which can be provided upon request.

No. 9 Slag (Used as an aggregate in the concrete mix)	100% Post Industrial Recycled Content
Korolath Bearing Pads (Placed at plank bearing ends)	60% Post Consumer Recycled Content
Steel Strand (cast-in reinforcing)	80% Recycled Scrap Metal (35% post industrial and 65% post consumer)

All components of our concrete mix are manufactured within 300 miles of our plant. Information on all suppliers, locations, and letters of recycled content are available upon request.

THE LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED) GREEN BUILDING RATING SYSTEM™

The U.S. Green Building Council (USGBC) is a 501(c)(3) non profit composed of leaders from every sector of the building industry working to promote buildings and communities that are environmentally responsible, profitable and healthy places to live and work.
